

Ir. Rajesh A/L Krishnamurthy

rajesh.ir@consulting.my | +60 12-556 7788 | Kuala Lumpur | linkedin.com/in/rajesh-ir-pe

PROFESSIONAL SUMMARY

Professional Engineer (Ir.) with 16 years of experience in structural and civil engineering, specialising in high-rise building design, infrastructure projects, and sustainable construction. Led RM 2.4 billion worth of engineering projects across Malaysia, Singapore, and UAE. Registered with Board of Engineers Malaysia (BEM). Six Sigma Black Belt. Reduced structural material costs by 22% through advanced finite element analysis and value engineering.

TECHNICAL EXPERTISE

Structural Analysis: SAP2000, ETABS, STAAD.Pro, ANSYS, finite element analysis (FEA)

Civil/Structural: RC design, steel design, foundation engineering, slope stability

BIM & CAD: Revit Structure, AutoCAD Civil 3D, Navisworks, BIM360

Sustainability: Green Building Index (GBI), LEED accredited, life cycle assessment

Project Mgmt: MS Project, Primavera P6, risk management, contract administration

Standards: Eurocode, British Standard, Malaysian Standard (MS), OSHA 1994

PROFESSIONAL EXPERIENCE

Principal Structural Engineer — Arup Malaysia Sdn Bhd

Jan 2015 – Present | Kuala Lumpur

- Lead structural engineer for 68-storey mixed-use tower (RM 1.1B) in KLCC — completed on time and 8% under budget.
- Managed team of 22 engineers and 8 draughtsmen across 4 simultaneous infrastructure projects.
- Reduced structural steel tonnage by 22% on highway bridge project using FEA optimisation, saving RM 4.8M.
- Implemented BIM Level 2 workflow across 6 projects, reducing design coordination clashes by 65%.
- Secured 3 international project contracts worth RM 890M through technical bid leadership.
- Mentored 12 graduate engineers; 4 subsequently obtained their Professional Engineer registration.

Senior Structural Engineer — Perunding ZNA

Aug 2010 – Dec 2014 | Kuala Lumpur

- Designed structural systems for 12 commercial and residential projects ranging RM 50M–RM 300M.
- Introduced ETABS-based parametric modelling reducing structural design time by 40%.
- Supervised site inspections ensuring compliance with structural drawings for 3 concurrent projects.

Structural Engineer — Jurutera Perunding Teguh

Sep 2008 – Jul 2010

- Performed structural analysis and design for industrial warehouse and residential developments.

EDUCATION

MSc Structural Engineering — Imperial College London — 2008 | Distinction

BEng (Hons) Civil Engineering — Universiti Teknologi Malaysia — 2006 | CGPA: 3.82

PROFESSIONAL REGISTRATIONS & CERTIFICATIONS

- Professional Engineer (Ir.) — Board of Engineers Malaysia (BEM), 2012
- Six Sigma Black Belt — ASQ, 2018
- LEED Accredited Professional (BD+C) — USGBC, 2016
- Chartered Engineer (CEng) — Institution of Structural Engineers (IStructE), 2014
