

Tan Wei Liang

tan.weiliang@eng.com | +60 16-234 5678 | Penang, Malaysia | linkedin.com/in/tanweiliang

PROFESSIONAL SUMMARY

Mechanical Engineer with 5 years of experience in product design, manufacturing process improvement, and quality control. Proficient in AutoCAD, SolidWorks, and MATLAB. Experienced in applying lean manufacturing and Six Sigma principles to reduce production waste and improve efficiency.

TECHNICAL SKILLS

CAD/CAE: AutoCAD, SolidWorks, CATIA, ANSYS (FEA)

Manufacturing: CNC machining, injection moulding, welding inspection

Methodologies: Lean manufacturing, Six Sigma (Green Belt), FMEA, 5S

Standards: ISO 9001, ISO 14001, OSHA compliance

Software: MATLAB, MS Project, SAP ERP

WORK EXPERIENCE

Mechanical Engineer — Bosch Malaysia Manufacturing

Mar 2019 – Present | Penang

- Designed and optimised 15+ mechanical components using SolidWorks, reducing material cost by 18%.
- Led Lean Six Sigma project reducing production defect rate from 3.2% to 0.8%.
- Improved CNC machining cycle time by 25% through toolpath optimisation.
- Coordinated with cross-functional team of 10 engineers across 3 product lines.
- Conducted FMEA analysis for 8 new product launches ensuring zero critical failures.

Junior Engineer — Superior Industries

Jul 2018 – Feb 2019 | Bayan Lepas

- Assisted in designing jigs and fixtures for aluminum die-casting process.
- Prepared technical drawings and BOMs for production team.

EDUCATION

BEng (Hons) Mechanical Engineering — Universiti Sains Malaysia — 2018

CGPA: 3.44 / 4.00 | Dean's List — 2 semesters

CERTIFICATIONS

- Six Sigma Green Belt — ASQ, 2021
- AutoCAD Certified Professional — Autodesk, 2020
