PROFESSIONAL SUMMARY

Senior Software Engineer with 7 years of experience designing and delivering scalable microservices on AWS using Python, Go, and Kubernetes. Led cross-functional teams of 12 engineers, reducing deployment time by 60% through CI/CD pipeline automation. Specialise in cloud-native architecture, REST API design, and DevOps best practices. AWS Certified Solutions Architect.

CORE TECHNICAL SKILLS

Languages: Python, Go, JavaScript (Node.js), SQL

Cloud & DevOps: AWS (EC2, S3, Lambda, RDS, EKS), Docker, Kubernetes, Terraform, CI/CD (Jenkins, GitHub Actions)

Frameworks: FastAPI, Flask, Django REST Framework, React

Databases: PostgreSQL, Redis, MongoDB, Elasticsearch

Practices: Microservices, Agile/Scrum, TDD, code review, system design

PROFESSIONAL EXPERIENCE

Senior Software Engineer — Grab Financial Group

Mar 2021 – Present | Kuala Lumpur

- Architected microservices platform processing 2M+ daily transactions using Python/FastAPI and Kubernetes on AWS EKS.
- Led team of 8 engineers to deliver payment reconciliation system 3 weeks ahead of schedule.
- Reduced API latency by 45% by introducing Redis caching and optimising PostgreSQL queries.
- Established CI/CD pipeline using GitHub Actions and Terraform, cutting deployment time from 4 hours to 20 minutes.
- Mentored 4 junior engineers through weekly code reviews and pair programming sessions.

Software Engineer — Axiata Digital Services

Jun 2018 – Feb 2021 | Cyberjaya

- Designed and built REST APIs serving 500K daily active users with 99.9% uptime SLA.
- Migrated monolithic Django application to 6 independent microservices, improving release frequency by 80%.
- Integrated ML-based fraud detection model (scikit-learn) reducing chargebacks by 22%.
- Implemented automated regression test suite (pytest) achieving 92% code coverage.

Junior Developer — Fusionex International

Jul 2017 – May 2018 | Kuala Lumpur

- Built ETL pipelines processing 10GB+ daily data using Python and Apache Spark.
- Developed internal analytics dashboard adopted by 3 enterprise clients.

EDUCATION

BSc (Hons) Computer Science — Universiti Malaya — 2017 | CGPA: 3.78 / 4.00

CERTIFICATIONS

- AWS Certified Solutions Architect – Professional (2023)
- Certified Kubernetes Administrator (CKA) — 2022
- Google Professional Cloud Developer — 2021

KEY PROJECTS

Real-Time Fraud Detection System

Built event-driven fraud detection pipeline using Kafka, Python, and AWS Lambda. Processes 50K events/second with <100ms latency. Reduced fraud losses by \$1.2M annually.
